## Vision Mission Statement

Our vision is to promote fitness awareness worldwide and ensure accessibility to fitness equipment in every corner of the planet. At PowerMax, we are deeply committed to exercise and wellness. In today's sedentary lifestyle, where computer-dominated professions are prevalent, fitness plays a crucial role. Our mission at PowerMax is to spread awareness about fitness and make it convenient and enjoyable for everyone, enabling them to lead longer healthier, and happier lives.

## Spiritual Mission Statement

Our spiritual mission is to enhance mental fitness by promoting fitness awareness.

We aim to motivate individuals to embrace a healthier lifestyle through exercise, providing them with detailed insights into the benefits of physical activity.

By making fitness a routine part of life, we strive to reduce medical costs and alleviate pain, while emphasizing how a healthy body contributes to a peaceful and fulfilling life.

## Business Mission Statement & Guiding Area

Our primary objective is to deliver premium Health and Fitness Products that guarantee a safe and satisfying user experience.

We are committed to manufacturing affordable fitness equipment, ensuring that individuals from all walks of life have the opportunity to prioritize their fitness.

In line with our dedication to customer satisfaction, we address the concerns and needs of every customer by providing exceptional service support, assisting with installation, and offering guidance on effective machine usage.

Our ultimate goal is to make fitness equipment readily available in every corner of the planet, enabling people to embark on their fitness journey conveniently.

# WHY POWERMAX :

Choose PowerMax for cutting-edge equipment that combines innovative design with advanced technology. Our products, crafted from premium materials, undergo rigorous testing to ensure durability and reliability. Benefit from unparalleled customer service provided by our team of fitness experts. We offer top-tier fitness solutions at competitive prices, making health and fitness accessible to all.

## Top-Notch Quality

Our fitness equipment is built to endure the rigors of commercial use, ensuring longevity and reliability.

## Extensive Product Range

From cardio machines to strength training equipment, we offer a comprehensive range of fitness solutions.

## Innovative Technology

PowerMax integrates the latest innovations, providing a seamless and engaging workout experience

## Best Sales Support

At PowerMax, we prioritize your satisfaction from the moment you consider our fitness solutions. Our dedicated sales support team is committed to providing you with unparalleled assistance.

## Space Optimization

PowerMax equipment allows you to maximize the utility of your space without compromising on functionality.

## Hassle-Free Service

Our team of experts ensures a smooth and efficient installation process, allowing you to focus on what matters most – your fitness journey.

# OUR CATEGORIES

Discover our diverse range of top-quality fitness equipment,  
designed to meet all your workout needs.

A black and white photograph of a person's back and shoulder, with the word "TREADMILL" repeated in various sizes and orientations in white and red text, creating a word cloud effect. The word "TREADMILL" is the central focus, appearing in many different scales and positions across the image. The largest instance is in red at the bottom center. Other instances are in white, some horizontal, some vertical, and some at angles. The background is a high-contrast, grainy image of a person's skin and muscle, which adds texture and depth to the composition.

# WalkPad® Series

## "Make more people fall in love with healthy sports life"

The WalkPad series is 90% space-saving than the traditional treadmill and can be easily folded and stored with the help of a double folding design and smooth-rolling wheels. It is a cardio choice for any home facility looking for ultra-thin walking treadmill space with remote control, exclusive sports app, foot speed sensing patent, modern unique design with child lock protection. It is of this series which is 100% Pre-installed with-in the single box, which is convenient and quick.

They are usually double foldable machines, and the walking platform uses a soft and comfortable EVA cushioning layer to protect the joints. It comes with a smooth layer of low friction coefficient, water-resistant, and anti-slip running belt.

It can be used to monitor the health status of the body using a heart rate sensor and the body fat detective system while some are featured with a weight scale to measure body weight also. The benefits of using Powermax Fitness Treadmills are they are easy to use; help you to track your work out progress, helps in losing weight faster than running outdoor, Allows to choose preset work-out programs, Improves heart health, improves muscles and calves toning, easy to fold and space-saving design as they are able to fit under the bed or beside the cupboard and wheels for easy transportation.

# JogPad<sup>®</sup> Series

## "Make more people fall in love with healthy sports life"

JogPad series is 90% space-saving than the traditional treadmill and can be easily folded and stored with the help of a Patented folding design and smooth-rolling wheels. The feature of putting the treadmill upright is the main unique selling point of the JogPad series. Its normal use is a treadmill, meeting the need for daily running. When the handrail is put down, it turns into a more space-saving walking pad, suitable for different use.

It is a cardio choice for any home facility looking for an ultra-thin walking treadmill space with remote control, exclusive sports app, foot speed sensing patent, modern unique design with child lock protection. It is of this series which is 100% Pre-installed with-in the single box, which is convenient and quick.

JogPad series is considered the best choice if you want to reap huge benefits with a little money and space. It is designed for domestic use only as the treadmill platform is a frequently used position, that is why we use high-density fiberboard to ensure its excellent quality; EVA cushioning layer with comfortable texture; smooth layer with low friction coefficient; wear-resistant and anti-slip running belt. The main feature that attracts is it comes with the motor less noise.

It can be used to monitor the health status of the body using a heart rate sensor and the body fat detective system while some are featured with a weight scale to measure body weight also. The benefits of using Powermax Fitness Treadmills are they are easy to use; help you to track your work out progress, helps in losing weight faster than running outdoor, Allows to choose preset work-out programs, Improves heart health, improves muscles and calves toning, easy to fold and space-saving design as they are able to fit under the bed or beside the cupboard and wheels for easy

### Fall in love with taking care of yourself!

Making your life easy with the all-new JogPad-2 Touch Screen Dual Display Treadmill with Bluetooth Speaker. Jogging on a treadmill with a top speed of 15 km per hour powered by a 2.5 Horse Power Peak DC motor makes this equipment very suitable for cardio. This JogPad-2 Touch Screen Dual Display Treadmill meets modern features as it has a dual display LED screen where parameters such as the time, speed, distance travelled, calories burnt, heart rate, etc, can be monitored. The benefits of running on this treadmill are quite a lot. A high amount of calorie burns, outside weather not hampering workouts, and technically very safe than running outside the house.

# UrbanTrek<sup>®</sup> Series

UrbanTrek™ Series is a family single upright tube, intelligent, Plug & Run treadmill. It is the cardio choice for any home facility looking for intuitive functionality, Space saving and modern unique design the whole machine of this series are 100% Pre-installed with-in the box, single button fast folding, convenient and quick.

They are featured with super wide treadmill and standing side rails with innovative ultra-low running platform without base frame design, having a height not more than 10cm from ground which makes running more comfortable and safe. The next generation suspension shock absorption system provides gradual force deflection, leading to soft landing to protect your knees and ankle effectively.

It can be used to monitor the health status of the body using heart rate sensor and the body fat detective system while some are featured with weight scale to measure body weight also. All machines of UrbanTrek™ Series have a quite, efficient, automatic noise reduction powerful motor. <b>Others Features</b>	Wheels for easy movability
<b>BMI</b>	It helps to know whether your fat is healthy or not.
<b>Multifunction</b>	Massager, 2pcs Dumbbells, Sit-up function
<b>Warranty</b>	1 Year Manufacturer Warranty

## TDA-255 Multifunction Motorized Treadmill with Auto Incline

<b>Motor</b>	5.5HP DC Motor
<b>Max User Weight</b>	150KG
<b>Incline</b>	15 levels Auto-incline with Fast Key
<b>Running Surface</b>	1300 X 480mm / 51.1 X 18.8inches
<b>Running Belt</b>	Multi-ply urethane coated high conductivity polyester satin weave with a PVC non-slip surface of 1.8 mm thickness.
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise & wear
<b>Shock Absorption</b>	8 Drum Octo-Flex Rubber Cushion with ComfortTech™ 6-Point Commercial Grade Damping System
<b>Program</b>	12 Pre-set workout, U1-U3
<b>Speed</b>	1.0 - 15.8 km/hr Speed select hot keys
<b>Display</b>	12.7cm LCD Display
<b>Others Features</b>	Auto Lubrication, Wheels for transportation and easy to install
<b>BMI</b>	It Helps to know whether your fat is healthy or not.
<b>Multifunction</b>	Massager & Sit-ups
<b>Warranty</b>	1 Year Manufacturer Warranty

## TDA-330 Motorized Treadmill with Cooling Fan

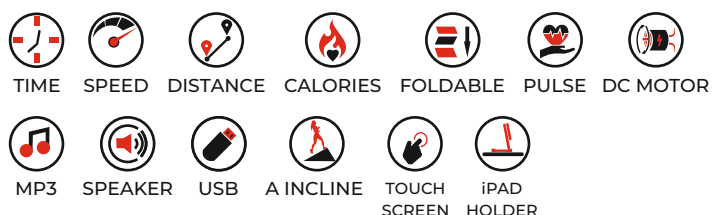

<b>Motor</b>	3.0HP DC Motor
<b>Max User Weight</b>	130KG
<b>Incline</b>	15 Level Auto Incline
<b>Running Surface</b>	1330X480mm / 52.4X18.9inches
<b>Foldable</b>	Hydraulic Softdrop System (HSS) <sup>TM</sup> (Vertical)
<b>Program</b>	12 Pre-set workout & 3 Target based modes
<b>Speed</b>	1.0-22km/Hr. With Fast Keys on console
<b>Display</b>	7inches LCD Display
<b>Paint Quality</b>	Anti-bacterial Powder Coat Finish
<b>Warranty</b>	1 Year Manufacturer Warranty

## TDA-350 Motorised Treadmill with 400m Track UI

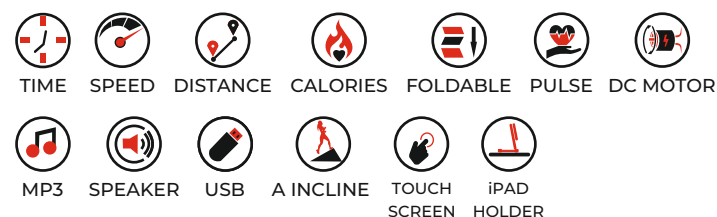

<b>Motor</b>	6HP DC Motor
<b>Max User Weight</b>	120KG
<b>Incline</b>	18 Level Auto Incline
<b>Running Surface</b>	1360 X 480mm / 53.5 X 18.8inches
<b>Running Belt</b>	3.2mm Diamond strip Anti-static running belt
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Shock Absorption</b>	Octo flexi rubber cushion with Double Layer Running Board for better shock absorption to reduce stress on your joints
<b>Program</b>	12 Pre-set workout & 3 Target based modes
<b>Speed</b>	1.0 - 18.0km/hr Speed select hot keys
<b>Display</b>	17.9cm Blue LCD display with 400m track UI
<b>Others Features</b>	AUX, USB for charging, Cooling Fan, iPad holder, Hi-Fi speaker, Bluetooth for Android & iOS App, Foldable and Easy to install and Wheels for transportation
<b>BMI</b>	It helps to know whether your fat is healthy or not.
<b>Warranty</b>	1 Year Manufacturer Warranty

## TDA-360 10.1inch HD Display Multifunction Motorized Treadmill

<b>Motor</b>	6.0HP DC Motor
<b>Max User Weight</b>	140KG
<b>Incline</b>	15 Level Auto Incline
<b>Running Surface</b>	1350 X 480mm / 53.1 X 18.8 inches
<b>Running Belt</b>	3.2 Diamond wave running belt
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Shock Absorption</b>	Dual spring shock absorption system with ComfortTech™ - 6-point commercial grade damping system to reduce stress on your joints.
<b>Program</b>	12 Pre-set Programs & 3 Target-based modes
<b>Speed</b>	1.0-18km/hr with speed buttons on handrail
<b>Display</b>	25.7cm Touch Screen - Time, Speed, Distance, Calories, Heart rate and Fat Measure
<b>Others Features</b>	iPad Holder, AUX & USB input, Hi-Fi Speaker, Foldable (HSS), Auto Lubrication, Easy Installation and Wheel for transportation
<b>Multifunction</b>	Massager, Sit-ups and Dumbbells
<b>Warranty</b>	1 Year Manufacturer Warranty

## TDA-360 15.6inch HD Display Multifunction Motorized Treadmill

<b>Motor</b>	6HP DC Motor
<b>Max User Weight</b>	140KG
<b>Incline</b>	15 Level Auto Incline
<b>Running Surface</b>	1350 X 480mm / 53.1 X 18.8 inches
<b>Running Belt</b>	3.2 Diamond wave running belt
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Shock Absorption</b>	Dual spring shock absorption system with ComfortTech™ - 6-point commercial grade damping system to reduce stress on your joints.
<b>Program</b>	12 Pre-set Programs & 3 Target-based modes
<b>Speed</b>	1.0-18km/hr with speed buttons on handrail
<b>Display</b>	39.6cm Touch Screen - Time, Speed, Distance, Calories, Heart rate and Fat Measure
<b>Others Features</b>	iPad Holder, AUX & USB input, Hi-Fi Speaker, Foldable (HSS), Auto Lubrication, Easy Installation and Wheel for transportation
<b>Multifunction</b>	Massager, Sit-ups and Dumbbells
<b>Warranty</b>	1 Year Manufacturer Warranty

## TDA-500

### Semi Auto lubricating Treadmill with 3D Smart Touch keys

<b>Motor</b>	4.0HP DC Motor
<b>Max User Weight</b>	150KG
<b>Incline</b>	15 Level Auto Incline
<b>Running Surface</b>	1400 x 500mm / 55.1 x 19.6inches
<b>Running Belt</b>	Diamond wave running belt with widened Anti-slip side track
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Shock Absorption</b>	6 Cylinder PowerFlex™ Adaptive Cushioning System (PACS) to reduce impact up to 25% compared to running on road.
<b>Program</b>	12 Pre-set workout & 3 target based modes
<b>Speed</b>	0.8 - 20.0km/hr
<b>Display</b>	Red LED Display with 400m Track LED Indicator - Time, Speed, Distance, Calories, Heart rate, Incline
<b>Others Features</b>	Heart Rate sensors, 360° rotating Wheels, MP3, USB, Semi-Auto Lubrication, Hi-Fi Speaker, iPad holder, HSS System and wheels for transportation.
<b>Warranty</b>	1 Year Manufacturer Warranty

## TDA-550

### Motorised Treadmill with 8" TFT Screen

<b>Motor</b>	8HP Peak DC Motor
<b>Max User Weight</b>	135KG
<b>Incline</b>	18 Level Auto Incline
<b>Running Surface</b>	1480 X 520mm / 58.2 X 20.4inches
<b>Running Belt</b>	3.5mm Diamond strip Anti- static running belt
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Run Board</b>	18 mm low maintenance pre- waxed phenolic coated both sides
<b>Shock Absorption</b>	Arch shox system with Double Layer Running Board for better shock absorption to reduce stress on your joints
<b>Program</b>	12 Pre-set workout & 3 Target based modes
<b>Speed</b>	1.0 - 18.0km/hr Speed select hot keys
<b>Display</b>	20.3cm Blue LCD display - Time, Speed, Distance, Incline, Calories & Pulse Sensor
<b>Others Features</b>	Cooling Fan, iPad holder, Bluetooth for Android & iOS App, AUX, USB for charging & Hi-Fi Speaker, Foldable and Wheels for transportation
<b>BMI</b>	It helps to know whether your fat is healthy or not.

## DOMESTIC TREADMILLS WITH AC MOTORS

**TAM-225**

**TAC-225**

### TAM-225 AC Motorized Treadmill with MP3 & iPad Holder

<b>Motor</b>	5HP AC Motor
<b>Max User Weight</b>	130KG
<b>Incline</b>	3 Level Manual Incline
<b>Running Surface</b>	1250X450mm / 49.2X17.7inches
<b>Running Belt</b>	Diamond Wave Running Belt
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Shock Absorption</b>	Cushion Shock Absorption
<b>Program</b>	12 Preset Programs
<b>Speed</b>	0.8-16km/Hr
<b>Display</b>	5" Inches LCD Display
<b>Others Features</b>	Water Bottle Holder, Wheels for Easy Movability and Manual Lubrication
<b>Warranty</b>	1 Year Manufacturer Warranty

### TAC-225 AC Motorized Treadmill with MP3 & iPad Holder

<b>Motor</b>	5HP AC Motor
<b>Max User Weight</b>	130KG
<b>Incline</b>	15 Levels Auto-incline
<b>Running Surface</b>	1250 X 450mm / 49.2 X 17.7inches
<b>Running Belt</b>	Diamond wave running belt
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Shock Absorption</b>	Cushion Shock Absorption
<b>Program</b>	12 Preset Programs
<b>Speed</b>	0.8-16km/hr.
<b>Display</b>	5" inches LCD Display - Time, Speed, Distance, Calories, Heart rate
<b>Others Features</b>	BMI, Wheels for easy movability, manual lubrication, Bottle holder

**Warranty** 1 Year Manufacturer Warranty

## TAC-330

### Semi-Commercial Treadmill with Semi-Auto Lubricating

<b>Motor</b>	6HP AC Motor
<b>Max User Weight</b>	130KG
<b>Incline</b>	15 Levels Auto Incline
<b>Running Surface</b>	1300X450mm / 51.1X17.7inches
<b>Running Belt</b>	Multi-ply polyester satin weave with a PVC
<b>Rollers</b>	Precision-machined, Steel tapered rollers keep the belt centred to reduce maintenance and noise
<b>Shock Absorption</b>	Dual spring shock absorption equipped with double layer running board to reduce stress on your joints
<b>Program</b>	12 Pre-set workout
<b>Speed</b>	0.8 - 15.0 km/hr
<b>Display</b>	12.7cm LCD Blue Screen
<b>Others Features</b>	Semi-Auto Lubrication, Wheels for transportation and easy to install
<b>Warranty</b>	1 Year Manufacturer Warranty

## TAC-400

### Semi-Commercial AC Treadmill with Android & iOS App

<b>Motor</b>	6HP AC Motor
<b>Max User Weight</b>	140KG
<b>Incline</b>	18 Level Auto Incline
<b>Running Surface</b>	1400 X 450mm / 55.1 X 17.7inches
<b>Running Belt</b>	Diamond strip Anti-static running belt.
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Shock Absorption</b>	Rubber shock absorption
<b>Program</b>	24 Pre-Set Programs
<b>Speed</b>	1.0-18km/hr.
<b>Display</b>	37 x 36cm LCD Display
<b>Others Features</b>	Manual Lubrication, Easy Installation and Wheel for transportation
<b>Warranty</b>	1 Year Manufacturer Warranty

## TAC-450 Semi-Commercial AC Motorized Treadmill with Large Display

<b>Motor</b>	6.0hp Ac Motor
<b>Max User Weight</b>	150kg
<b>Incline</b>	20 Levels Auto Incline
<b>Running Surface</b>	1450X545mm / 57X21.4inches
<b>Running Belt</b>	1.8mm Diamond Wave Running Belt
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Shock Absorption</b>	Rubber shock absorption
<b>Program</b>	24 Program & 3 Users + Body Test (BMI)
<b>Speed</b>	1.0-22km/Hr
<b>Display</b>	57.5X33cm LED Display
<b>Others Features</b>	Manual Lubrication, Wheels for Transportation
<b>Warranty</b>	1 Year Manufacturer Warranty

## TAC-600 Semi-Commercial Motorized Treadmill Android & iOS App

<b>Motor</b>	6HP Noiseless AC Motor
<b>Max User Weight</b>	150KG
<b>Incline</b>	18 Level Auto Incline
<b>Running Surface</b>	1500x520mm / 59x20.5inches
<b>Running Belt</b>	Diamond strip anti-static running belt.
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Run Board</b>	18mm thickness composed of high density fibre board core with phenolic laminate bonded
<b>Shock Absorption</b>	Rubber Cushion + Spring Foot Cushion Shock Absorption System
<b>Program</b>	12 Preset Workout Programs
<b>Speed</b>	1.0 – 20km/hr
<b>Display</b>	18inch LED Display - Time, Speed, Distance, Incline, Calories & Heart rate on crossbar handle
<b>Others Features</b>	Emergency stop button, Wheels for transportation, Foldable and Easy to install, iPad holder, AUX, USB input & Speaker
<b>Connectivity</b>	Bluetooth App for Android & iOS (can connect with Fitshow/Kinomap/Zwift app), MP3 & USB input
<b>Warranty</b>	1 Year Manufacturer Warranty

## TAC-650 Semi-Commercial Motorised AC Treadmill (7" TFT Screen)

<b>Motor</b>	5.0HP AC Motor
<b>Max User Weight</b>	150KG
<b>Incline</b>	18 Level Auto Incline
<b>Running Surface</b>	1500 X 580mm / 59 X 22.8inches
<b>Running Belt</b>	3.2mm Diamond strip anti-static running belt.
<b>Rollers</b>	Precision-machined, steel crowned rollers keep belt centered and running smoothly to reduce noise and wear
<b>Run Board</b>	18mm thickness composed of high density fibre board core with phenolic laminate bonded
<b>Shock Absorption</b>	Double Layer Running Board with 8 big shock spring for better shock absorption to reduce stress on your joints
<b>Program</b>	12 Preset workout with HRC Healing Function & 3 target based modes
<b>Speed</b>	0.8 - 20.8km/hr
<b>Display</b>	Bright Blue 17.9cm LCD window display - Time, Speed, Distance, Incline, Calories & Heart rate on crossbar handle
<b>Others Features</b>	Emergency stop button, Wheels for transportation, Foldable and Easy to install, iPad holder, AUX, USB input & Speaker
<b>BMI</b>	It helps to know whether your fat is healthy or not
<b>Warranty</b>	1 Year Manufacturer Warranty

A black and white photograph of a person's face, partially obscured by a dense word cloud of the word "ELLIPTICAL". The word "ELLIPTICAL" is repeated in various sizes, orientations, and colors (white and red) over the image. The largest word is in red at the bottom center. The background image shows a close-up of a person's face, with the word cloud primarily covering the right side and the lower half.

## EH-200 Elliptical Cross Trainer with Hand Pulse

<b>Display</b>	LCD display - Time, Speed, Distance, Calories, Pulse & Scan
<b>Drive System</b>	Fan-wheel chain drive
<b>Resistance</b>	Micro adjustable tension control
<b>Max User Weight</b>	100KG
<b>Pedals</b>	Comfortable Anti-slip pedals
<b>Crank</b>	Two way crank system
<b>Others Features</b>	Wheels for transportation, Resistance control knob, Soft adjustable seat, Adjustable handle bar & Heart rate sensor on handle
<b>Warranty</b>	1 Year Limited Warranty

## EH-750 Elliptical Cross Trainer

<b>Display</b>	LCD Display - Scan, Time, Speed, Distance, Calories, Pulse, RPM, Recovery
<b>Flywheel</b>	9KG Flywheel
<b>Stride Length</b>	330 x 175mm
<b>Resistance</b>	16 Level Electromagnetic Tension Control
<b>Max User Weight</b>	120KG
<b>Pedals</b>	Large Anti-slip Pedals
<b>Crank Arm</b>	Disc Type
<b>Hand Pulse</b>	Heart rate sensor on handle
<b>Certificate</b>	EN957, RoHS
<b>Others Features</b>	Adaptor-Water Bottle Cage and Two Wheels for transportation
<b>Warranty</b>	1 Year Manufacturer Warranty.

## EH-760 Elliptical Cross Trainer with Water Bottle Cage

<b>Display</b>	LCD Display - Time, Speed, Distance, Calories, Pulse, RPM, Recovery
<b>Flywheel</b>	12KG Flywheel
<b>Resistance</b>	32 Level Resistance
<b>Max User Weight</b>	150KG
<b>Brake System</b>	Motorized Magnetic Brake System
<b>Programs</b>	12 Preset Programs
<b>Pedals</b>	Large Anti-Slip Pedals
<b>Hand Pulse</b>	Heart Rate Sensor on Handle
<b>Stride Length</b>	14 inches
<b>Others Features</b>	Device holder for Smart Phone or iPad and Water Bottle Cage
<b>Warranty</b>	1 Year Manufacturer Warranty.

## EH-800 Elliptical Cross Trainer

<b>Display</b>	131*59 (mm) LCD Display - Time, Speed, Distance, Calorie, Pulse, Scan, Recovery, Body fat, RPM, Manual
<b>Flywheel</b>	9KG
<b>Drive System</b>	Belt Drive System
<b>Resistance</b>	32 Levels Magnetic Resistance
<b>Max User Weight</b>	120 kg
<b>Pedals</b>	Anti-slip large pedals for comfortable workout
<b>Crank Arm</b>	Disc
<b>Others Features</b>	iPad holder, Wheels for transportation, Resistance controller, Hand pulse & 100V – 240V AC Adapter
<b>Warranty</b>	1 Year Limited Warranty

## EH-850 Elliptical Cross Trainer with Hand Pulse, Water Bottle

<b>Display</b>	LCD Display - Scan, Time, Speed, Distance, Calories, Pulse, RPM, Resistance level, Watts,
<b>Flywheel</b>	14KG Flywheel
<b>Resistance</b>	32 Level Resistance
<b>Max User Weight</b>	150KG
<b>Pedals</b>	Anti-slip Pedals
<b>Crank Arm</b>	Disc Type
<b>Stride Length</b>	17inches
<b>Hand Pulse</b>	Heart Rate Sensor on Handle
<b>Certificate</b>	EN957, RoHS
<b>Others Features</b>	Tablet or Smart Phone holder and Water Bottle Cage
<b>Warranty</b>	1 Year Manufacturer Warranty.

## EH-900 Elliptical Cross Trainer with Water Bottle Cage

<b>Display</b>	15inch Backlight Display - Time, Speed, Distance, Calories and Pulse
<b>Flywheel</b>	9KG Cast Iron Flywheel
<b>Resistance</b>	8 Level Manual Resistance
<b>Max User Weight</b>	150KG
<b>Drive System</b>	Rear Drive Belt System
<b>Power Source</b>	2 x AA Batteries
<b>Shell</b>	Food Grade ABS
<b>Others Features</b>	iPad Holder and Wheels for Easy Transportation
<b>Warranty</b>	1 Year Manufacturer Warranty.

A black and white photograph of a person's face in profile, looking down. The image is heavily layered with the text "RECUMBENT BIKE" in various sizes, orientations, and colors (white and red). The text is most prominent in the center and bottom, where it forms a large, bold, red "RECUMBENT BIKE". The background is a soft-focus portrait of a person's face, with the text appearing to be overlaid on it. The text is arranged in a way that it seems to be floating or falling around the person's face, creating a sense of movement and repetition. The overall effect is a visually busy and artistic composition that emphasizes the words "RECUMBENT BIKE".

## BR-800

### Magnetic Recumbent Bike

<b>Display</b>	LCD display - Time, Speed, Distance, Odometer, Scan, Calories and Hand Pulse
<b>Flywheel</b>	6KG, Two Way
<b>Drive System</b>	Belt drive

<b>Warranty</b>	1 Year Manufacturer Warranty

**BS- MINI** Mini Cycle Pedal Exerciser

<b>Display</b>	LCD Display – Scan, Time, Count, Calories and RPM
<b>Resistance</b>	Adjustable Resistance controlled by knob
<b>Material</b>	Plastic + Steel
<b>Foldable</b>	Yes
<b>Pedals</b>	Comfortable Pedals with Anti-slip foot strap
<b>Warranty</b>	6 Months Upholstery Warranty

A black and white photograph of a person's back and shoulder, with the words "UPRIGHT BIKE" repeated in various sizes and orientations, creating a word cloud effect. The words are white and red, contrasting with the dark background. The largest word, "UPRIGHT BIKE", is in red and positioned centrally. Other instances of the phrase are in white, scattered around the central word, some following the contours of the person's body. The overall composition suggests a focus on posture and the brand's association with upright cycling.

A black and white photograph of a person's face, partially obscured by a dense word cloud of the word "POWER". The word "POWER" is repeated in various sizes, orientations, and colors (white and red) across the image, with the largest red "POWER" at the bottom center. The background is a close-up of a person's face, with the word "POWER" appearing to be superimposed over it. The word "POWER" is written in a bold, sans-serif font. The colors used are white and red. The word "POWER" is repeated many times, creating a sense of intensity and power. The largest "POWER" is at the bottom center, in red. Other "POWER"s are in white and of various sizes, some horizontal, some vertical, and some at angles. The background is a close-up of a person's face, with the word "POWER" appearing to be superimposed over it. The overall effect is one of strength and dominance.

Three roller of kneading massage roller on feet part. Shiatsu massage on feet. 16 sets of air - compression bag. All - wrapped air bags, comprehensive air-compression. Carbon cloth heater, keep a steady temperature. Heating therapy.

### Features:

**Fashionable, Dexterous Design:** Optimal artful design, color variety, easy to fit in furniture and house.

**Airbag Pressure Massage And Rollers Massage to the Bottom of Foot:** It imitates air pressure technology from message chair with tender massage intensity and flexible massage functions. Special rollers are equipped on the foot bottom to simulate acupuncture points in the foot. Working together with air pressure, it helps achieve the best massage effect.

3 Level of Intensity and 5 Programs Lead to 17 Kind of Different Massage Combination: you can choose your desired massage intensity and program to achieve the most comfortable massage effect

Upper Part Multi Angle Adjustable: It adopts double-parts design for massage, the angle of upper part can be adjusted from 0 to 120 degrees.

**Far Infra-Red Heat:** With Far Infra-red heat function, it can warm the body and promotes blood circulation.

**Detachable Fabric Cover:** Detachable fabric cover is removable and washable.

**Safety:** The airbags can shrink automatically to prevent legs from being stuck when the power is off in a sudden.

**Benefits:** Reduce the pressure of foot and leg, improve the flexibility of muscle, beautify the curve of leg, stimulate blood circulation, ease the pain after exercise, stimulate the points, remove fatigue and improve the quality of sleep a variety of three-dimensional massage.

We move shiatsu rolling foot massage unite into this leg massager.

Leg & knee massage simulate professional music therapists, pinch, rub, rub, point, according to a variety of massage techniques, to achieve three-dimensional linkage leg foot massage.

Dimensional computer carefully controlled massage intensity, do not worry about non-professional masseur hurt your body.

All around wrap airbags

360-degree wrap around airbags with more powerful massage and a wider care air-compression.

Circulating air pressure pulse controlled by integrated chip. With soft and comfortable feeling.

Completely breaking the traditional weakness of foot massage machine with hard contacts to help eliminate leg fatigue caused by prolonged standing, leg reshape and curve good shape.

6 groups of carbon fiber heating cloth, warm your legs, feet, 50 degree temperature heating well protected legs and foots from the cold breath of intrusion, take care of your health.

Leg & knee massager set up eight groups of carbon fiber heating device at the knee and ankle, simulate the traditional cupping heating, warm legs and foot's corresponding parts

A black and white photograph of a person's back and shoulder, overlaid with a word cloud of the text "VIBRATION PLATE". The words are in various sizes, orientations, and colors (white and red), creating a dynamic and layered effect. The largest word, "VIBRATION PLATE", is in red and spans across the middle of the image. Other words are in white and are scattered around it, some following the contours of the person's body. The background is a high-contrast, grainy image of a person's back, with the spine and shoulder blades visible. The overall composition is abstract and artistic, emphasizing the concept of vibration through the repetition of the text.

Non-Toxic and Safe for Your Health  
Long-Lasting Maintenance Solution

A black and white photograph of a person's back and shoulder, overlaid with a word cloud of the word "DUMBBELLS". The word is repeated many times in various sizes and orientations, with the largest instance in red at the bottom center. The background image shows the person's skin and muscle texture, with the word cloud primarily concentrated on the right side of the image.

**PDS-10KG** Dumbbell Set with Non-Slip Grip for Home Use

Plates Included: 2 x 2KG + 4 x 1KG  
1 x 14T Chromed Bar and 2 x Star Collars with Rubber Grip

**PDSC-10KG** Dumbbell Set Metal Plates + Dumbbell Rods Home Gym

Plates Included: 2 x 2KG + 4 x 1KG (Plate have two colour)  
1 x 14T Chromed Bar and 2 x Star Collars with Rubber Grip

**PDS-15KG** Dumbbells Set Metal Plates + Dumbbell Rods Home Gym

Plates Included: 4 x 0.5KG + 8 x 1.25KG  
2 x 14T Chromed Bar and 4 x Star Collars with Rubber Grip

**PDSC-15KG** Dumbbells Set Metal Plates + Dumbbell Rods Home Gym

Plates Included: 4 x 0.5KG + 8 x 1.25KG (Plates have two color)  
2 x 14T Chromed Bar and 4 x Star Collars with Rubber Grip

**PDS-20KG** Dumbbells Set Metal Plates + Dumbbell Rods Home Gym

**PDS-30** Baking Iron Dumbbells Set

## PDS-30C

### Chrome Iron Dumbbells Set

Plates Included: 4 x 1.25KG + 2 x 2KG + 2 x 5KG

2 x 14T Chromed Bar and 4 x Star Collars, 1 x Barbell with Rubber Grip

## PDS-50KG

### Dumbbell Set Metal Plates + Dumbbell Rods Home Gym

Plates Included: 4 x 1.25KG + 6 x 2.5KG + 4 x 5KG

2 x 14T Chromed Bar, 60T Chromed Bar in 2 Sections, 6 x Star Collars, 1 x Barbell Connector with Rubber Grip and Black Paint Finish

## Rubber Coated Solid Dumbbells

Tear Proof, Sound Less & Bouncy Effect

Available Size (in KG): 2.5, 5, 7.5, 10, 12.5, 15, 17.5, 20, 22.5, 25, 30, 35, 40, 45, 50

## Rubber Coated Hexagon Dumbbells

Tear Proof, Sound Less & Bouncy Effect

Available Size(in KG): 2.5, 5, 7.5, 10, 12.5, 15, 17.5, 20, 22.5, 25, 30, 35, 40, 45, 50

## Dumbbells M.S.Chrome

Tear Proof, Sound Less & Bouncy Effect

Available Size (in KG): 2.5, 5, 7.5, 10, 12.5, 15, 17.5, 20, 22.5, 25, 30, 35, 40, 45, 50

## Dumbbells Plate Type

Tear Proof, Sound Less & Bouncy Effect

Available Size(in KG): 2.5, 5, 7.5, 10, 12.5, 15, 17.5, 20, 22.5, 25, 30, 35, 40, 45, 50

### Kettle Bell Dumbbell

A legendary Russian exercise device, the kettle Bell has long been a favourite for those seeking a special edge in strength and endurance.

Available Size (in KG ): 2, 4, 8, 12, 16, 20, 24, 28, 32, 36

### Vinyl Dipping Triangle Dumbbell

Available Size(in KG): 1, 2, 3, 4, 5

## WEIGHT PLATES

### Rubber Coated Olympic (50mm) Plates - Black

Metal Ring for durability and also available in 29mm hole

Tear Proof, sound less & bouncy effect

Available Size (in KG ): 1.25, 2.5, 5, 7.5, 10, 15, 20, 25

### Standard M.S Plate - Chrome Plate

Also available in Olympic (50mm) hole

High quality chrome finish for long lasting

Available Size (in KG ): 1, 1.25, 2, 2.5, 3, 4, 5, 7.5, 10, 12.5, 15, 17.5, 20,

## BARBELL

Dumbbells Set Metal Plates + Dumbbell Home Gym

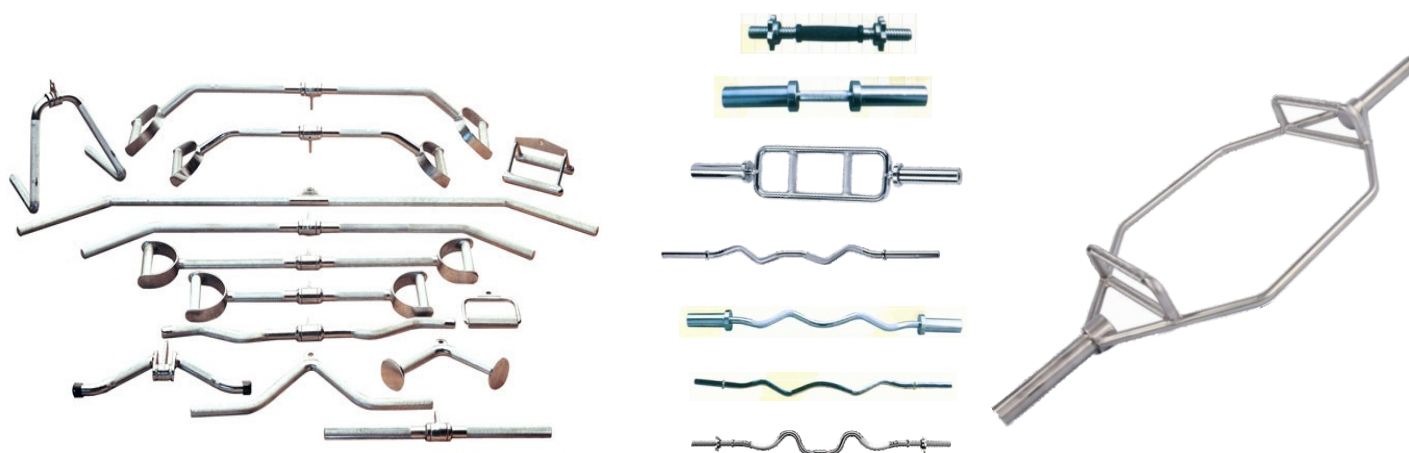

**Tear proof**

Tear proof, sound less & bouncy effect

**Available Sizes**

(in Kgs) - 5, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 70

## Smart Device BCA-130 Bluetooth Smart Scale

Works with "FEELFIT", Free download at  and  Google play

Engineered for the health-conscious, the Powermax BCA-130 Bluetooth Smart Scale provides in-depth measurements of not only your weight, but also other key measurements that can aid you in optimum weight management. Bioimpedance is the common method used by household scales to calculate body composition. Powermax BCA-130 uses the Bioimpedance method by using 4 sensitive stainless steel electrodes to determine the hindrance of electrical flow through the body, and uses that to calculate the total body water. From the total body water, it can estimate the 13 key body compositions.

### Body Composition Data:

Weight, BMI, Body Fat, Fat-Free Body Weight, Subcutaneous Fat, Visceral Fat, Body Water, Skeletal Muscle, Muscle Mass, Bone Mass, Protein, BMR, Metabolic Age

### APP Features:

- App support Android & iOS
- Weighing Reminder
- Unlimited number of User
- Auto recognize family Members
- Auto LB/KG/ST recognition
- Cloud based data storage to ensure safety
- Connect to Apple health kit/Google Fit/Fitbit and more
- Password App Lock to ensure privacy
- Calendar based history review
- Social sharing of measurement and moments.

### Note:

1. Keep your App running while stepping on the scale platform to measure data.
2. Stepping on the scale without bare feet or Bluetooth pairing to App, would only measure the body weight

# BCA-150

## Smart Bluetooth Body Fat Scale

This digital scale is used to determine a person's weight. Furthermore, it is possible to measure, BMI body fat, water, muscle, and bone percentages and to determine your recommended daily calorie intake. This digital scale should not be used outdoors or in tropical climates. This digital scale is not designed for commercial use or operation in a company. Use the digital scale only for private purposes in living areas as any other use is not as intended. These digital scales meet all relevant norms and standards in relation to CE conformity.

### Body Composition Data:

Weight, Body Fat, Body Water, Visceral Fat, BMR, BMI, Muscle, Bone Mass, Metabolism, Protein, Obesity Degree, Body Age, Weight without Fat

### APP Features:

- App support Android & iOS
- Weighing Reminder
- 810.BLE Module Memory user
- Auto recognize family Members
- LB/KG/ST Conversion
- Cloud based data storage to ensure safety
- Connect to Apple health kit/Google Fit/Fitbit and more
- 4 Digits in LED Display
- Calendar based history review
- Social sharing of measurement and moments.
- Overload and low battery indication
- 4x1.5V AAA Battery Power
- 180kg/396lb Capacity

### Note:

1. Keep your App running while stepping on the scale platform to measure data.
2. Stepping on the scale without bare feet or Bluetooth pairing to App, would only measure the body weight

# VOSTA V3 DIGITAL STABILIZER

Engineered for Treadmills and Home Use Appliances

Vosta V3 Voltage Stabilizer for Treadmills ensures optimal protection and performance of your equipment. With this voltage stabilizer there is no need to worry about voltage fluctuation.

## Features:

- Input Voltage Range: 140-260VAC
- Output Voltage: 220 VAC ( $\pm 8\%$  Accuracy)
- Recommended for treadmills 3.0HP and above AC/DC motor and home use appliances
- Full protection design for High Voltage, Overload, Under Voltage, Overheat, Short Circuit and Overload to protect your equipment
- Digital LED display, continuously displays input & output voltage with 3 LED indicators
- Integrated with Zero cross switching technology with High Efficient, 100% Copper Toroidal Transformer
- MCU controlled circuit for precision and regulated output
- CE certified

## Specification:

- Output Power: 3KVA
- Input Frequency: 45Hz—65Hz
- Output Voltage: 220V
- Output Accuracy:  $\pm 8\%$
- Efficiency: 95%
- Phase: Single phase
- Delay Time: 6s/180s selectable
- Operation Temperature:  $-10^{\circ}\text{C}$ — $40^{\circ}\text{C}$
- Storage Temperature:  $20^{\circ}\text{C}$ — $40^{\circ}\text{C}$
- Operation Relative Humidity: Max 95%, non-condensing
- Stabilizer Type: Electromagnetic AVR Relay
- Output Connector: Socket
- Capacity: 3KVA
- Cooling Mode: Natural
- Dimension: 303 x 172 x 170mm

## Appliances :

Treadmill up to 3.0HP and above AC/DC motor

Supported Up to 1.5 Ton Air Conditioner

Refrigeration equipment: fan, refrigerator, chest freezer, cooler and air conditioner

Kitchen appliances: microwave oven, rice cooker

Entertainment appliances: TV, DVD, VCR, DVB, HiFi

IT & Office types of equipment: PC, workstation, fax machine, photocopier

Heating systems: gas boiler, circulation pump

# VOSTA V4 DIGITAL STABILIZER

Engineered for Treadmills and Home Use Appliances

Vosta V4 Voltage Stabilizer for Treadmills ensures optimal protection and performance of your equipment. With this voltage stabilizer there is no need to worry about voltage fluctuation.

## Features:

- Input Voltage Range: 140-260VAC
- Output Voltage: 220 VAC ( $\pm 8\%$  Accuracy)
- Recommended for treadmills 3.0HP and above AC/DC motor and home use appliances
- Full protection design for High Voltage, Overload, Under Voltage, Overheat, Short Circuit and Overload to protect your equipment
- Digital LED display, continuously displays input & output voltage with 3 LED indicators
- Integrated with Zero cross switching technology with High Efficiency, 100% Copper Toroidal Transformer
- MCU controlled circuit for precision and regulated output
- CE certified

## Specification:

- Output Power: 4KVA
- Input Frequency: 45Hz—65Hz
- Output Voltage: 200V-240VAC
- Output Accuracy:  $\pm 8\%$
- Efficiency: 95%
- Phase: Single phase
- Delay Time: 6s/180s selectable
- Operation Temperature:  $-10^{\circ}\text{C}$ - $40^{\circ}\text{C}$
- Storage Temperature:  $20^{\circ}\text{C}$ - $40^{\circ}\text{C}$
- Operation Relative Humidity: Max 95%, non-condensing
- Stabilizer Type: Electromagnetic AVR Relay
- Output Connector: Socket
- Capacity: 4KVA
- Cooling Mode: Natural
- Dimension: 383 x 278 x 268mm

## Appliances :

Treadmill up to 3.0HP and above AC/DC motor

Supported Up to 2 Ton Air Conditioner

Refrigeration equipment: fan, refrigerator, chest freezer, cooler and air conditioner

Kitchen appliances: microwave oven, rice cooker

Entertainment appliances: TV, DVD, VCR, DVB, HiFi

IT & Office types of equipment: PC, workstation, fax machine, photocopier

Heating systems: gas boiler, circulation pump

# VOSTA VW3 3KVA DIGITAL VOLTAGE STABILIZERS

Engineered for Treadmills and Home Use Appliances

Ensure uninterrupted performance and longevity for your appliances with the Vosta VW3 3KVA Digital Voltage Stabilizer. Designed for heavy treadmills and home appliances, this stabilizer offers advanced protection against voltage fluctuations, keeping your equipment safe and efficient.

## Specification:

- Input Voltage Range: 140-260VAC
- Output Voltage: 220V
- Efficiency: >95%
- Delay Time: 6 seconds /180 seconds
- Operation Temperature: -10 ~40
- Operation Relative Humidity: Max 95%, non-condensing
- Storage Temperature: -20 ~40
- Package Dimension: 41.7 x 24.3 x 12.1 cm
- Output Precision: 220V±8%
- Distortion: <3%
- Protection: Output High Voltage, Output Low Voltage, Overcurrent, Short Circuit, Overheat
- Noise: <65dB (at 1m distance)
- Capacity: 3KVA
- Socket: 1PC 220V
- Others: 4 Relays, Toroidal Transformer, Plastic Panel and Metal Cabinet
- Input Frequency: 45Hz—65Hz
- Output Frequency: synchronized with input frequency

## Appliances :

Treadmill up to 3.0HP and above AC/DC motor

Supported Up to 2 Ton Air Conditioner

Refrigeration equipment: fan, refrigerator, chest freezer, cooler and air conditioner

Kitchen appliances: microwave oven, rice cooker

Entertainment appliances: TV, DVD, VCR, DVB, HiFi

IT & Office types of equipment: PC, workstation, fax machine, photocopier

Heating systems: gas boiler, circulation pump

# VOSTA VW4 4KVA DIGITAL VOLTAGE STABILIZERS

Engineered for Treadmills and Home Use Appliances

Ensure consistent power supply and safeguard your appliances with the Vosta VW4 4KVA Digital Voltage Stabilizer. Engineered for heavy treadmills and high-power home appliances, this stabilizer delivers unmatched efficiency and reliability in voltage regulation.

## Specification:

- Input Voltage Range: 140-260VAC
- Output Voltage: 220V
- Efficiency: >95%
- Delay Time: 6 seconds / 180 seconds
- IP Class: IP20
- Operation Temperature: -10 ~ 40
- Operation Relative Humidity: Max 95%, non-condensing
- Storage Temperature: -20 ~ -40
- Product Dimension: 46 x 11 x 26 cm
- Output Precision: 220V ± 8%
- Distortion: < 3%
- Protection: Output High Voltage, Output Low Voltage, Overcurrent, Short Circuit, Overheat
- Noise: < 65dB (at 1m distance)
- Capacity: 4KVA
- Socket: 1PC 220V
- Others: 4 Relays, Toroidal Transformer, Plastic Panel and Metal Cabinet
- Input Frequency: 45Hz—65Hz
- Output Frequency: synchronized with input frequency

## Appliances :

Treadmill up to 3.0HP and above AC/DC motor

Supported Up to 2 Ton Air Conditioner

Refrigeration equipment: fan, refrigerator, chest freezer, cooler and air conditioner

Kitchen appliances: microwave oven, rice cooker

Entertainment appliances: TV, DVD, VCR, DVB, HiFi

IT & Office types of equipment: PC, workstation, fax machine, photocopier

Heating systems: gas boiler, circulation pump

## **TREADMILL BUYING GUIDE**

### **Treadmill Buying Guide : Choose the Right Treadmill for You**

#### **But buyers beware!**

There are more treadmills on the market than any other kind of fitness equipment leaving you the consumer with a mind-boggling choice. This is a mixed blessing. There is now a good range of quality treadmills to choose from but there are many more treadmills out there that you should think very carefully about before spending you're hard earned cash.

#### **Consider the following.**

A good motor fitted to a quality treadmill will have a trade price of INR42000 plus. Yet there are cheap treadmills on the market selling for this price. To be fair even the cheapest treadmills will offer something to those on a tight budget but be warned, they may come with problems. Some of these machines have been designed to last not much more than 6 months because they think that people will not be using them for much longer than that. It sounds unbelievable but true. A lot of these fitness machines are sold on the web. They are bought over by the container from the Far East. The web site sells them off offering all kinds of guarantees then a few months down the line the web site disappears leaving you the consumer with no redress. So if you see a very low priced treadmill its a case of buyer beware.

The following tips will help you maximize your investment, prevent you falling into any traps and also help you reach your desired goals.

#### **Buying your Treadmill**

**1. Consider who will be using the treadmill and what their specific goals are.**

It is often the case that there will be more than one person in the family who will be using the treadmill. Discussing each person's goals will help make sure that you purchase workout equipment that will withstand the use of multiple family members and provide the adjustments to accommodate different size users. For example, going for the cheapest option or buying a low quality underpowered motorised treadmill is a common mistake, but one that can cause considerable problems, particularly if it is being used by both a 57 and a 107 Kg person. Also will the treadmill grow with you? In a very short time with regular use you will find your fitness improving and as it does so you will need more from your treadmill. Will it be able to accommodate this?

**2. Go to a specialist fitness store and test the treadmill.**

A specialist fitness equipment store should be able to offer a range of treadmills for you to try. They will also be able to show you how to use the treadmill properly and provide installation as well as show you how to do routine maintenance. Then test the exercise equipment yourself.

Almost any treadmill will feel and seem adequate if you just walk on it for a couple of minutes. Its only when you begin to put the treadmill through its paces by jogging or running on it, adding elevation and using different programmes will you start to see and feel the major difference in quality and comfort, even vibration and noise.

When you go to the store wear appropriate clothing so you can test the gym equipment properly. A good treadmill is a major investment. Take your time.

## Location & Space.

Consider where you are going to site your treadmill. There is no problem with putting a treadmill upstairs as long as you appreciate that someone running hard on it will cause some noise and vibration below. A garage is fine as long as its not damp, which would effect the electronics. Conservatories are popular, but if its south facing it may get to hot. If you have a gym room on the ground floor, which is something that is growing in popularity then you have the perfect solution. Space should not be too much of a problem today now that there is such a large range of folding treadmills available. Don't forget that a motorised treadmill is an electric treadmill and will therefore require power from an electric socket.

## Features.

Powermax Fitness  
Treadmill Console

### Easily Navigable Console

When you look at the treadmill console does it make sense? Do you intuitively know how the buttons work? Is the screen large enough and the workout information easy to read? The sales person will show you the basics but when you get the treadmill home they will not be there to guide you, so make sure you feel comfortable that you will be able to use the console with ease.

### Cushioned Deck

This is a major selling point for all treadmills now, but not all cushioning systems are the same. The ideal absorption system should be one that feels firm and stable when you run yet still forgiving. It should not feel soft and spongy and slap back at you. This kind of cushioning could cause knee injuries over time and also wear out quickly. Good quality treadmills from respected manufacturers provide cushioning that is researched based and can show evidence on why their system works. There should be methodology in the system other than simply putting in rubber spacers or dampeners. Some treadmills now come with orthopaedic belts, which subtly enhance the cushioning further. The only way you can be sure you like the feel of the cushioning is to test the treadmill. Remember anything that will make your workout more comfortable will result in you sticking with it and achieving your desired goals. eadmill and will therefore require power from an electric socket.

Continuous Duty  
Treadmill Motor

### 1. Adequate Motor

This is where the confusion really starts. Don't be fooled by the 'bigger is always better' rhetoric. There is more to a treadmill motor than its size. What you should look for is a continuous duty HP motor (continuous duty is a measure of horsepower under regular anticipated use and is far more meaningful than 'peak' horsepower).

In reality 2.0HP and above should be sufficient for any user as long as the rest of the motorised treadmills components are of a high quality. For example a good cooling mechanism will reduce the heat generated by the motor and other major components, prolonging their life and reducing wear on these parts. A large motor with a poor cooling system is not a good combination as this will result in premature wear and poor performance. However a superior cooling system and quality electronics do not come cheap and this is why there is such a disparity in price of motorised treadmills. Try not to focus on just the 'big' or 'quiet' motor, instead look at the treadmill as a whole system, with matching components that work together. It is this that makes the difference between a bog standard cheap treadmill and a quality treadmill.

### Console Feedback

An array of feedback features is available on most motorised treadmills. It is tempting to buy one with everything but before you do, consider what is important to you and the other users of the treadmill and how you will use it. You will certainly need the basic information such as speed, distance, elevation and time. You then need to look for features that will motivate and challenge you such as pace and heart rate. If you get bored easily it may be worth investing money in a treadmill that has a range of different workout programmes, as this will help you stay motivated.

### Folding Mechanism

Folding treadmills use one or two hydraulic pistons to assist with the lifting and lowering of the running deck. Make sure the piston is good quality and does the job. The majority of foldable treadmills have what some brands call a 'softdrop' mechanism. This lets the running deck drop slowly and gently without any intervention from you. It was designed to prevent injury to young children who may have accidentally released the treadmill from its raised locking position. These work very well but again the quality of the piston is crucial. The locking device differs considerably from brand to brand. Some have a simple release handle conveniently positioned at shoulder height, others have a pivoting plate at the bottom of the treadmill that you have to push down with your foot and others have an annoying lever type piston combined support that you have to pull apart. They all work adequately but some are just easier to use. We are often asked if foldable treadmills are less stable than a platform (non-folding) treadmill. Years ago folding treadmills were very unstable compared with a platform treadmill and cheap treadmills still are today. But buy a quality folder and you will be hard pressed to feel the difference.

### Belt -

The belt should be long enough and wide enough to accommodate your running style, if you plan to do a lot of running then look for a belt with a width of 500mm (20") and a length of 1400mm (55").

### Speed -

The maximum speeds will vary between models. Mid range and commercial treadmills have maximum speeds of 20kph (12mph). To give you an idea of speed, world class runners run at an average speed of 20kph during a marathon!

### **Incline (Elevation) –**

If you plan to do a lot of uphill walking or running then look for a treadmill with an incline of 10%. Thankfully most mid range treadmills incline to 10% (some incline to 12%).

### **Maximum user weights –**

Always check the maximum user weight before you purchase. Budget running machines usually have maximum user weights of around 100kg whilst mid range treadmills have maximum user weights of around 130kg.

### **Accessories –**

You can purchase many accessories. At Powermax Fitness Superstore we offer accessories such as: Floor protector Mats, Extended treadmill warranties, Heart Rate Monitors and much more.

### **Remember the must haves when buying a Treadmill**

Easy to read and easy to use treadmill console

Cushioned Deck

Programmes and features on the treadmill that are meaningful to you

An adequate continuous duty HP motor, 2HP or above is best

### **Safety and Maintenance**

Running and walking on a moving piece of exercise equipment is very effective and simple, but for the raw beginner it can also feel unsafe and fraught with quality issues if you don't choose wisely.

### **Safety Features**

Look for an emergency stop button on the treadmill that is easy to see and accessible, no matter what speed or incline you are running at. There should also be a safety tether key. This is a key that plugs into the treadmill console and has a cord that runs from it that attaches to your clothing. If this key is pulled out the treadmill will automatically stop. Therefore if you fall or faint then the treadmill will not continue running which could cause serious injury. A tether key is ideal for a beginner. Has the treadmill got heart rate features, feedback and interactivity? All these help towards a safe and effective workout. Make sure the treadmill has handrails that are comfortable to hold but are not intrusive. Can you run or walk without your hands or arms hitting them? Testing in store for several minutes will help decide this. Finally the belt speed should rise and fall in gradual increments, guaranteeing you are always in control. When buying fitness equipment, gym equipment or any type of workout equipment safety must always be a priority.

### **Maintenance**

A treadmill will always require a little maintenance, after all a treadmill is a mechanical and electronic piece of moving exercise equipment. However on a quality treadmill the maintenance should be minimal. Once set up you should not be centring the belt or lubricating the running deck after every workout. A well- designed unit should take in normal wear and tear. Ask the salesman what is required. Some treadmills have reversible running decks. This means that if normal wear and tear takes its course on the running surface the deck can be flipped over, basically doubling the life of the running deck. This is something that can be done by a competent owner but it is always worth asking the store what they will charge to do it professionally. If you have bought quality, professional gym equipment then it may be worth paying that extra to get a professional to look after it. However on a quality treadmill this is something that will not be required for many years.

Treadmill Deck  
Lubrication and  
Maintenance

### Warranty

Today treadmill warranties are almost used as a marketing tool. Companies now compete to offer longer and more comprehensive warranties. This is all well and good as long as the manufacturer is still in business in 10 years time. At minimum the treadmill should have a 3 year motor warranty, 1 year electronics and 1-2 year labour cover. As with everything else and this is probably more so with a treadmill, you get what you pay for. A treadmill has to take an enormous amount of punishment compared to other fitness equipment. For anyone who has regularly visited a health club they have probably found that the one piece of equipment that is out of order more than any other is the treadmill. Therefore the better the quality the less likely you will need to use your warranty.

### Finally

Equally as important, does the dealers from whom you are purchasing the exercise equipment, have their own service staff that are trained and authorised by the manufacturer to service your fitness equipment. At Powermax Fitness we have our own dedicated service engineers who have years of experience.

### Why you should buy your treadmill from Powermax Fitness

- We offer an extensive range of treadmills, covering all budgets
- Your treadmill warranty: All treadmills come with a minimum 1 year parts and labour warranty. Many far exceed this with 3 and 5 year warranties depending on Models
- Treadmill delivery: Delivered direct to your door
- Treadmill installation: Treadmills can be very heavy that is why we would recommend our installation service. Installed by our own engineers.

## **PowerMax Fitness**

### **Never Compromises With Quality of Products.**

1. Powermax Fitness equipments are manufactured from heavy gauge Steel frame duly Powder coated for prevention from corrosion and adds longer life to the machine.
2. All electrical and electronic parts are CE approved for better life and confirm to IS standard.
3. Rollers of Treadmill are dynamically balanced for better life of the conveyor belt and Bearings and ensure smooth workout.
4. Termite and waterproof jogging board for better life of Treadmill.
5. Industrial Graded fasteners and wire ropes to withstand sudden loads.
6. Dust proof panels provided to protect precise electronic parts.
7. All Electrical controls are tested for safety of user from Electric shocks.
8. Belts and flywheels are provided with guards' for safety of the user.
9. Powermax products are Power saving and help to cut on electrical Bills.
10. Pads are constructed of thick, High Density Foam surrounded by top Grade upholstery for a firm contoured feel during workouts.

A row of treadmills in a modern gym with large windows. The treadmills are black and silver, and the windows are large and rectangular, letting in natural light. The gym has a high ceiling with exposed pipes and lights.

## Vision Mission Statement

Our vision is to promote fitness awareness worldwide and ensure accessibility to fitness equipment in every corner of the planet. At PowerMax, we are deeply committed to exercise and wellness. In today's sedentary lifestyle, where computer-dominated professions are prevalent, fitness plays a crucial role. Our mission at PowerMax is to spread awareness about fitness and make it convenient and enjoyable for everyone, enabling them to lead longer healthier, and happier lives.

## Spiritual Mission Statement

Our spiritual mission is to enhance mental fitness by promoting fitness awareness.

We aim to motivate individuals to embrace a healthier lifestyle through exercise, providing them with detailed insights into the benefits of physical activity.

By making fitness a routine part of life, we strive to reduce medical costs and alleviate pain, while emphasizing how a healthy body contributes to a peaceful and fulfilling life.

## Business Mission Statement & Guiding Area

Our primary objective is to deliver premium Health and Fitness Products that guarantee a safe and satisfying user experience.

We are committed to manufacturing affordable fitness equipment, ensuring that individuals from all walks of life have the opportunity to prioritize their fitness.

In line with our dedication to customer satisfaction, we address the concerns and needs of every customer by providing exceptional service support, assisting with installation, and offering guidance on effective machine usage.

Our ultimate goal is to make fitness equipment readily available in every corner of the planet, enabling people to embark on their fitness journey conveniently.

# WHY POWERMAX :

Choose PowerMax for cutting-edge equipment that combines innovative design with advanced technology. Our products, crafted from premium materials, undergo rigorous testing to ensure durability and reliability. Benefit from unparalleled customer service provided by our team of fitness experts. We offer top-tier fitness solutions at competitive prices, making health and fitness accessible to all.

## Top-Notch Quality

Our fitness equipment is built to endure the rigors of commercial use, ensuring longevity and reliability.

## Extensive Product Range

From cardio machines to strength training equipment, we offer a comprehensive range of fitness solutions.

## Innovative Technology

PowerMax integrates the latest innovations, providing a seamless and engaging workout experience

## Best Sales Support

At PowerMax, we prioritize your satisfaction from the moment you consider our fitness solutions. Our dedicated sales support team is

## Space Optimization

PowerMax equipment allows you to maximize the utility of your space without compromising on functionality.

## Hassle-Free Service

Our team of experts ensures a smooth and efficient installation process, allowing you to focus on what matters most – your fitness journey.

# OUR CATEGORIES

Discover our diverse range of top-quality fitness equipment, designed to meet all your workout needs.

## CARDIO MACHINES

DISCOVER ENDLESS POSSIBILITIES WITH OUR HIGH-PERFORMANCE TREADMILLS

## STRENGTH MACHINES

REDEFINING FITNESS - SETTING A NEW STANDARD FOR EXCELLENCE

## WEIGHTS & BARS

A black and white photograph of a person's legs running on a treadmill. The word "TREADMILL" is repeated numerous times in various sizes, orientations, and weights (some bold, some regular) across the image, creating a word cloud effect. The largest and most prominent instance of the word is in the center, rendered in a large, bold, red font. Other instances are in white, some appearing as small, faint text and others as larger, more visible elements. The background shows the motion of the legs and the treadmill belt, with some motion blur.

## TA-C4

### Premium Commercial AC Motorized Treadmill

Motor	4.0 HP AC Motor
Max User Weight	140KG
Incline	20 Level Auto Incline
Running Surface	1500X 520mm / 59 X 20.4inches
Running Belt	Diamond wave running belt
Running Deck	18mm low maintenance pre-waxed phenolic coated both sides.
Rollers	28mm thickness composed of high density fibreboard core with phenolic laminate bonded.
Shock Absorption	Double Layer Running Board with Pro Cushion for better shock absorption to reduce stress on your joints
Program	99 pre-set programs and 3 Custom Programs

A black and white photograph of a person's face, partially obscured by a dense word cloud of the text "UPRIGHT BIKE". The words are in various sizes and orientations, with the largest ones in red at the bottom. The background is a close-up of a person's face, with the eyes and nose visible. The word cloud is composed of many instances of "UPRIGHT BIKE" in different font sizes and orientations, creating a textured effect. The largest words are in red, while the smaller ones are in white. The overall composition is abstract and artistic, combining a human face with a repetitive text pattern.

## BR-800

### Semi-Commercial Recumbent Bike

Flywheel	6KG, one way
Max User Weight	120KG
Resistance level	8 Level Tension
Drive System	Belt Drive
Display	LCD display - Time, Speed, Distance, Odometer, Scan, Calories and Hand pulse
Pedals	Double color bigger pedal
Crank	6.7 Inch, 3pcs crank
Seat	The comfort seat and back cushion provides exceptional comfort
Other Features	iPad holder, Wheels for transportation, Resistance controller, Hand pulse on the handle bar, HDR foam grip, Adjustable rear stabilizer in height
Warranty	1-year warranty.

## BR-900

### Semi-Commercial Recumbent Bike

Flywheel	9KG, one way
Max User Weight	135KG
Resistance level	8 Level Tension
Drive System	Belt Drive
Display	LCD display - Time, Speed, Distance, Odometer, Scan, Calories and Hand pulse
Pedals	Comfortable Anti-Slip pedals
Crank	6.7 Inch, 3pcs crank
Seat	The comfort seat with deluxe and multi-angle adjustment mesh back provides exceptional
Other Features	iPad holder, Handlebar and wheels for easy transportation, Resistance controller, Hand pulse on the handle bar, HDR foam grip, Adjustable front
Warranty	1-year manufacturer warranty.

## BR-2000C Commercial Recumbent Bike

Flywheel	14 kg one-way self-generating inertia wheel of 242mm diameter
Max User Weight	150KG
Resistance level	20 Level Auto tension control electromagnetic Resistance
Drive System	1- Way Clockwise
Display	LCD Display-Time, Distance, Calories, Heartbeat, RPM, Speed, Watts, Level, Age & Weight
Crank	3pcs Oversize crank
Program	11 built-in Programs
Pedals	Comfortable anti-slip pedals
Others Features	Quick key, Quick Hand Key for Easy Adjustment, Book Rack & Bottle Holder & Wheels for Easy
Warranty	1-year manufacturer warranty.

## BR-4000C Commercial Recumbent Bike

Flywheel	15KG Flywheel
Max User Weight	150KG
Resistance level	20 Level Resistance
Power Supply	Self-Generator
Display	Time, Distance, Calories, Resistance Level, Watts, Pulse, Speed, Profile,
Crank Arm	175mm
Program	Manual, Interval, Weight Loss, Target Heart Rate, Fit Test, Random, Warm Up and Warm Down, etc Total 12 Programs
Heart Rate	Hand pulse
Others Features	USB for Charging, Speakers, Cooling Fan and Wheels for Easy Transportation
Warranty	1-year manufacturer warranty.

## BA-2500C

### Commercial Air Bike

Max User Weight	150KG
Resistance level	Steel Fan/Air Resistance
Drive System	Dual transmission system (Belt & Chain)
Display	LCD Display - Time, Speed, Distance, Calories,
Bike Type	Air Bike
Program	Wide range of training programs & User Defined
Seat	Horizontal and vertical seat post
Pedals	Anti-slip Metal pedals for comfortable workout
Other Features	Dipping handlebar, Bottle holder, Wheels for easy movement
Warranty	1-year manufacturer warranty.

## BA-1500C

### Commercial Air Bike

Resistance	Wind Resistance
Max User Weight	180KG
Crank	2pcs
Drive System	Belt & Chain drive
Display	15 X 22 cm LED Display
Brake System	Manual
Pedals	Metal pedals
Seat	Vertical and horizontal seat adjustable PU + Foam
Handle	Steel + Foam Grip Handles
Other Features	Bottle Holder and Two Wheels for transportation
Warranty	1-year manufacturer warranty.

# GROUP BIKE

A black and white photograph of a person's back and shoulder, with the words "GROUP BIKE" repeated in various sizes and orientations as a graphic overlay. The text is arranged in a way that it appears to be floating or layered over the image, with some instances being larger and more prominent than others. The background is a textured, slightly out-of-focus image of a person's skin and clothing.

## BS-2070C Semi Commercial Group Bike/Spin Bike

Flywheel	20KG flywheel
Max User Weight	170kg
Resistance level	Variable linear increase
Drive System	Belt
Display	LCD display, Time, Speed, Distance, Calories, Pulse
Brake System	by pressing the knob, Double direction with direct push emergency stop
Seat	Seat can be adjusted vertically & horizontally
Pedals	SPD racing pedals
Others Features	Handle can be adjusted horizontally and vertically- Transport wheels for easy movement
Crank	3-pcs

## BS-2500C

### Heavy Commercial Group Bike

Flywheel	24KG Flywheel
Max User Weight	200kg
Resistance level	Step Less Resistance
Drive System	PL Belt transmission with smooth & silent
Brake System	Side break system
Display	CD display, Time, Speed, Distance, Calories, Pulse
Seat	Fully Adjustable Gel Seat With Sweat Proof Finish
Handle	Adjustment Distance Horizontal 170mm, Vertical
Handle bar material	Skid Proof Material
Pedals	Professional multi-function pedal with SPD for both commercial user and athletes
Saddle adjustment	Horizontal adjustment 170mm, vertical adjustment 210mm
Other Features	Ultra sturdy structure with heavy duty crank, Transport wheels for easy movement
Crank	3pcs

## BS-3600C Commercial Spin Exercise Bike

Flywheel	24KG flywheel
Max User Weight	180kg
Resistance level	Manual Stepless Speed Regulation
Drive System	Belt
Wheels	Transportation Wheels
Brake System	Manual
Seat	Adjustable Seat, It can be Adjusted Vertically or
Pedals	Adjustable foot strap
Others Features	Handle can be adjusted horizontally and vertically- Transport wheels for easy movement
Crank	2pc Crank

A black and white photograph of a person's face, partially obscured by a dense word cloud of the word "POWER". The word "POWER" is repeated in various sizes, orientations, and colors (white and red) across the image, with the largest "POWER" in red at the bottom center. The background is a close-up of a person's face, with the word "POWER" overlaid in various sizes and orientations, creating a sense of intensity and focus. The word "POWER" is the central theme, appearing in white and red, with the largest instance in red at the bottom center. The overall composition is dynamic and visually striking, emphasizing the concept of power through both imagery and typography.

## RWC-1000 Water Rowing Machine with Digital Display for Commercial use

Max User Weight	135KG
Resistance	Water Resistance
Resistance Level	8 Level
Display	LCD Monitor – Time, Time/500M, SPM, Distance, Strokes, Total Strokes, Calories Burned, and Pulse
Slide Rail Material	Aluminum alloy sliding rail
Slide Rail Length	124.4cm
Sliding Distance	110cm
Transmission	Pull rope using pulley
Power Source	Battery (2*AA)
Other Features	Anti-slip Pedals with Adjustable Foot Strap, Soft Padded Sliding Seat
Warranty	1 Year Manufacturer Warranty

## RAC-2500 Air Rowing Machine with LCD Display for Commercial use

Max User Weight	160KG
Resistance Level	10 Level
Resistance	Air Resistance
Display	LCD Monitor – Time, Distance, Calories, Total elapsed time, Total meters, Average pace for workout, Split meters, Cadence, Current Pace and Projected Finish
Slide Rail Material	Aluminium Alloy
Slide Rail Length	96.5cm
Slide Rail Inseam	38 inch inseam
Transmission	Steel chain Pull rope using pulley
Power Source	2 x D cell batteries (Monitor draws power from the spinning flywheel to extend battery life.)
Other Features	Nickel-plated steel chain, Seat is in comfortable PU material, Large Foot Pedals, Anti-slip handle bars, Double powder coat with glossy finish and Foldable
Warranty	1 Year Parts, Components and Labor, Lifetime Frame

LCD Monitor

Large Foot Pedals

Air Resistance

## SAC-1000 SKI Machine for Commercial Use

Max User Weight	150KG
Resistance Level	10 Level
Display Type	4.5inches LCD Display
Display Function	Time, Calories, Distance, SPM (Stroke Per Minute), Watt
Application	FitHome App for Android & iOS
Exercise Function	Peptide Biceps, Elbow, Abdominal, Gluteus Maximus, Quadriceps, Knee
Floor Stand	Wooden Floor Stand
Drive Cords	Black Cotton Thread
Handles	Strapless Handles Provide for A Comfortable, Secure Grip and Won't Absorb Sweat So They Stay Dry in High
Frame	Steel Frame
Warranty	1 Year Manufacturer Warranty

## STC-01

## Professional Fitness Stair Climber

- 9 Automatic Programmes
- 2 Target Training Programmes
- Manual Training Programme
- Machine is work with having weight only, without weight can't work
- Fast wireless mobile charging
- Control Panel With LED Display
- Heart Rate Monitor To Measure Heart Rate
- Emergency stop using light sensor technology

At PowerMax Fitness we are aware of people's well-being, body care, maintenance and relaxation. Many are the people who do not have moments to take care of themselves throughout the day and this is where the PowerMax Fitness training equipment come in, which bring you the daily possibility of a general rest of the body and stress relief.

Climbing or descending stairs is analytically and technically proven to allow you to improve cardiovascular fitness and capacity with regular training on the PowerMax Fitness Stair Climber. In addition, it helps improve the strength of the heart and lower blood pressure. It helps to improve muscle strength and contributes to the good condition of the muscles.

### Features:

**Professional design:** Its design and resistant materials guarantee the durability of the product.

**Operation:** The fitness ladder must be activated once it is up, positioned to start the exercise smoothly.

**Operation mode:** Control panel

### Professional fitness STC-01 stair climber:

The PowerMax Fitness STC-01 stair climber is made of robust and durable materials, so you can exercise as many times as you need, as if you were in a gym.

### Control Panel:

The control panel allows you to view your speed, distance traveled, accumulated training time, and calories burned.

### Functioning:

The PowerMax Fitness STC-01 stair climber must be put into operation once it is up, to avoid problems, once the exercise has started, it should be gradually climbed.

### Multiple Uses:

You can do your exercises at home while watching your favourite series and even if you are teleworking and want to disconnect.

### Sports

# STRENGTH ALLIGATORS

# RISE STRONG

## O SERIES

---

PowerMax has innovatively integrated punching technology into its product design for the first time with the Stark Series. This series has gained immediate popularity upon launch. The perfect blend of an open-design side cover and a proven biomechanical training module not only offers a fresh experience but also sets the stage for future advancements in PowerMax's strength training equipment.

# SINGLE FUNCTION

**O-001**

**Converging Chest Press**

Size(L x W x H) : 1120x1300x1422 mm

N.W. : 184 kg  
Weight Stack : 100kg

## O-008 Tricep Seated Dip

Size(L x W x H) : 1610 x 1100 x 1422 mm  
N.W.: 218 Kg  
Weight Stack :100 Kg

## O-009 Back Extension

Size(L x W x H) : 1295x1155x1422 mm  
N.W.: 207 kg  
Weight Stack : 100 kg

## O-010 Abdominal Isolator

Size(L x W x H):1280x1040x1640 mm  
N.W.: 140 kg  
Weight Stack : 100 kg

## O-012 Lat Pull Down

Size(L x W x H) : 1112.4x1339.23x1641.92 mm  
N.W. : 174 kg  
Weight Stack : 100 kg

## O-013A Prone Leg Curl

Size(L x W x H):1530x960x1422 mm  
N.W.: 210 Kg  
Weight Stack : 100 Kg

## O-014 Leg Extension

Size(L x W x H):1500x930x1422 mm  
N.W.: 215 Kg  
Weight Stack : 100 Kg

## O-016A Standing Gluts Extension

Size(L x W x H):1370x1010x1570 mm  
N.W.: 175 kg  
Weight Stack : 100 kg

## O-018 Hip Abductor

Size(L x W x H):1570x835x1422 mm  
N.W.: 192 kg  
Weight Stack : 100 kg

## O-019 Hip Adductor

Size(L x W x H):1570x835x1422 mm

N.W.: 192 kg

Weight Stack : 100 kg

# DUAL FUNCTION

**O-002A**

**Rear Delt / Pec Fly**

Size(L x W x H) : 1022x1780x2025 mm

N.W. : 234kgs

Weight Stack : 100 Kg

**O-003A**

**Multi-Press**

Size(L x W x H) : 2080x1550x1422 mm

N.W. : 217 Kg

Weight Stack : 100 Kg

**O-007A**

**Cable Biceps & Triceps**

Size(L x W x H) : 1260x1200x2150 mm

N.W. : 184 Kg

Weight Stack : 100 Kg

**O-007B**

**Biceps & Triceps**

Size(L x W x H) : 2010x1045x1625mm

N.W. : 239 Kg

Weight Stack : 100 Kg

## O-009A

### Abdominal Crunch + Back Extension

Size(L x W x H) : 1365x1110x1422 mm  
N.W. : 207 kg  
Weight Stack : 100 kg

## O-0011

### Chin + Dip Assist

Size(L x W x H) : 1145x1378x2280 mm  
N.W. : 196 kg  
Weight Stack : 100 kg

## O-012A

### Lat Pull down & Seated Row

Size(L x W x H) : 1890x1540x2150 mm  
N.W. : 225 Kg  
Weight Stack : 100 Kg

## O-014A

### Leg Extension + Leg Curl

Size(L x W x H) : 1645x930x1422 mm  
N.W. : 223 kg  
Weight Stack : 100 kg

**O-015****Seated Leg +  
Calf Press**

Size(L x W x H) : 1995x995x1422 mm  
N.W. : 226 kg  
Weight Stack : 100 kg

**O-019A****Abductor + Adductor**

Size(L x W x H) : 1570x835x1422 mm  
N.W. : 192 kg  
Weight Stack : 100 kg

# STARK SERIES

---

This is the first time Powermax has tried to use punching technology in product design. The Stark Series has been very popular as soon as it is launched. The perfect combination of the hollow-style side cover design and the tried-and-tested biomechanical training module not only brings a new experience, but also provides sufficient impetus for the future reform of Powermax strength training equipment.

## SYNERGY Synergy-360

### SYNERGY 360:

Our premier training destination has eight unique training spaces, including a 10-handle monkey bar zone & two dedicated areas for TRX suspension training.

Our unique Synergy 360 concept's modular design can be customized to best reflect your training programs and objectives, and provide your exercisers with the motivational resources they want and need.

Equip your facility with the essentials to support a wide range of training activities.

The most auxiliary attachment points and integrated storage available afford you the unique opportunity to create your own SYNERGY 360 experience.

### Additional Specification:

#### Frame

Steel frame ensures maximum structural integrity; Each frame receives an electrostatic powder coat finish which ensures maximum adhesion and durability

Shroud Full front (optional) and back shrouds and pulley covers

Weight Stacks

Guide Rods

Solid-steel weight plates; Top weight plate is fitted with self-lubricating bushings; weight selector pin magnetically locks in place and is connected to stack to prevent loss; Incremental weight system is integrated on top plate.

Cables & Pulleys

## SYNERGY Synergy-360 A

**Frame Footprint:** 22 X 14 Foot / 6.62 x 4.22 meter  
(suspension suite not included)

**Frame Height:** 8 feet / 2.35 m

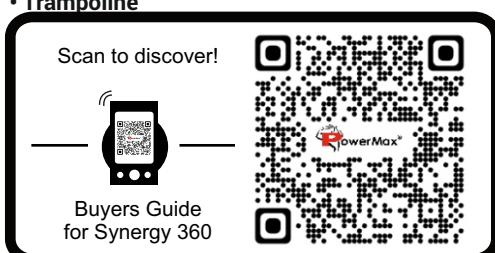

**Tube:** 100 X 50mm oblong tube

**Net Weight:** 955KG (Accessories not included)

- Functional Trainer
- Punching Bag
- Ladder
- Cable Station
- Two suspension chin up bar
- TRX Trainer
- 2 U Link adjustment column
- 4 Accessories storage sleeves
- TRX Trainer
- Suspension step up platform
- Suspension Knee raise
- Trampoline

### Accessories:

- Medicine balls – KG (2 x 1) (3 x 1) (4 x 1)
- Kettle bells – KG (4 x 1) (6 x 1) (8 x 1) (10 x 1)
- Punching / Boxing bag – 1 Nos.
- Battle Rope – 1 Nos.
- Boxing Gloves – 1 Pair
- TRX training Belt – 2 Nos.
- Trampoline – 1 Nos.
- Suspension – 3 Nos.
- Olympic Barbell – 1 Nos.

## SYNERGY Synergy-360 B

**Frame Footprint:** 16 x 6 Foot / 4.80 x 1.75 meter  
(suspension suite not included)

**Frame Height:** 8 feet / 2.35 m

**Tube:** 100 X 50mm oblong tube

**Net Weight:** 426KG(accessories not included)

### Accessories:

- Kettle bells – KG (4 x 1) (6 x 1) (8 x 1) (10 x 1)
- Punching / Boxing bag – 1 Nos.
- Battle Rope – 1 Nos.
- Boxing Gloves – 1 Pair
- TRX training Belt – 2 Nos.
- Olympic Barbell – 1 Nos.

Net Weight : 14KG

A black and white photograph of a person's face, heavily obscured by a dense word cloud of the word "RACKS". The word "RACKS" is repeated in various sizes, orientations, and colors (white and red) across the entire image, with the largest red "RACKS" at the bottom center. The background is a high-contrast, grainy image of a person's face, with the word cloud layered on top. The word "RACKS" appears in many different sizes, from small text to large, bold letters. Some instances are white, while the largest one at the bottom is red. The word is oriented horizontally, vertically, and at various angles, creating a complex, textured effect that dominates the visual field. The overall composition is abstract and repetitive, emphasizing the word "RACKS" as the central theme.

## RB-9M | 12M

9 Meter Battle Rope

9 & 12 Meter Battle Rope

A black and white photograph of a person's back and shoulder, overlaid with a word cloud of the text "MASSAGE CHAIR". The words are in various sizes, orientations, and colors (white and red), creating a dense, artistic composition. The background image shows the contours of a human back, with the spine and shoulder blades visible. The word cloud is concentrated in the center and right side of the image, with some words appearing in the upper right corner and others in the lower left. The overall effect is a visual representation of the concept of a massage chair, using repetition and scale to create a sense of depth and focus.

## PMC-2000 Full Body Massage Chair

Model Name: PMC-2000

Massage Modes: Kneading, Tapping, Tuina and Knocking

Purpose of Use: Massage Chair - relaxing muscles, Moving, Improving blood flow temporarily alleviate joint pain, enhance detoxification
